Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Secondary Lead Smelters (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), “NSPS for Secondary Lead Smelters (40 CFR Part 60, Subpart L) (Renewal)” (EPA ICR No. 1128.11, OMB Control No. 2060-0080), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through February 29, 2016. Public comments were previously requested via the *Federal Register* (80 FR 32116) on June 5, 2015 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before [insert date 30 days after publication in the Federal Register].

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2012-0535, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave., NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without

change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Abstract: Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR Part 60, Subpart A, as well as the specific requirements at 40 CFR Part 60, Subpart L. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities: Secondary lead smelting facilities.

Respondent's obligation to respond: Mandatory (40 CFR Part 60, Subpart L).

Estimated number of respondents: 14 (total).

Frequency of response: Initially.

Total estimated burden: 37 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,720 (per year); there are neither annualized capital/startup nor operation & maintenance costs.

Changes in the Estimates: In this ICR, there is a decrease in the number of estimated sources from 25 to 14 due to the assumption of a shrinking sector. However, this ICR also modifies the burden item for reading and understanding the rule to include time for all existing sources to re-familiarize themselves with the regulatory requirements every year. As a result, there is no net change in the labor hours compared to the previous ICR. The reduced number of estimated sources also leads to a decrease in the number of responses.
